

XTS-MVDR-SSP

MINI control panel with panic button

PRODUCT SPECIFICATIONS

PRODUCT FEATURES

- V Connect with MDVR for driver to check the MDVR working status easily
- The panic button to trigger alarm for emergency

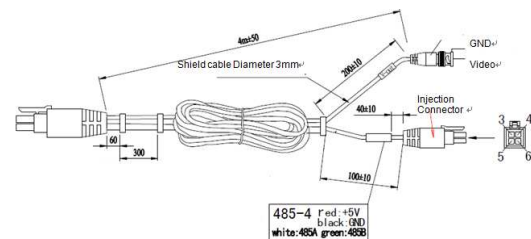

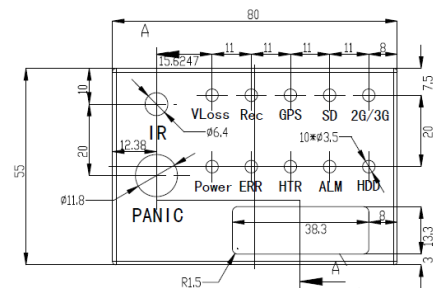

PRODUCT CAPABILITIES

XTS-MVDR-SSP by XTS Corp allows to show the MDVR working status. When the MDVR is installed in the vehicle, can be hard to check it's status. For that, the Engineer Staff from XTS Corp has take another addition to it's well know mobile solutions line.

XTS Corp develops this panel with 10 LEDs for easier MDVR working status checking. The device is capable of giving status on Recordings, 3G/2G Network, Alarms and Power, GPS signal among others.

Any of the LED flash will indicate the corresponding status. Furthermore the panic button on the panel make it easier to trigger alarm for emergency. It's design makes it easy to install and manage.

TECHNICAL SPECIFICATIONS
